

## Welcome to the WIL seminar in Porto 18-19 of January

### *Instructions for the seminar*

The word seminar means, “*Plant a seed*” and builds on an old pedagogical idea that learning can be utilised and fostered through a collective process. This postulates that all members in a group have the right to talk and to be treated with respect. The moderator’s task will be to facilitate the conversations and discussions. In order to make the seminar as fruitful as possible all participants will read the four assigned papers, and thereafter write up cases (see below) that will be elaborated in groups. You can find the papers here:

<http://www.hv.se/Media/Get/26773/paper-theme-4.pdf>

### *Instructions for the case descriptions*

Choose **three** themes that you find interesting and relevant. Thereafter write a one-pager/case relevant to the chosen theme and send to [kristina.johansson@hv.se](mailto:kristina.johansson@hv.se). The cases can be based on your own experience, on theory, or found in your colleagues or student’s experiences. Please leave out all information that can reveal you or your institution. All our conversations will be anonymous and we will apply the following: What is said in Porto – stays in Porto. This to create an open environment where we make sure we all benefit the most from the discussions, and together can reach new insights and understandings!

Any questions please do not hesitate to contact any one of us.

See you in Porto!
